

## Mechdyne Cybersecurity Solution

**D**etect, protect, and defend against cybersecurity attacks with Mechdyne's new all-in-one cybersecurity solution. This new platform, Defendify, is simple, easy to manage, and affordable.

### What's in it for you?

Mechdyne provides you with the tools to protect your business against any cyber-related attacks that will focus on:

- Building a strong foundation for your organization with the right policies, procedures, and plans
- Promoting a culture of risk awareness and training
- Integrating the right technology solutions that go beyond the traditional antivirus and firewalls services

With this all-in-one solution, you will receive:

### *Cybersecurity Dashboard*

This dashboard will provide you with your current health grade, recommendations for improvement, reports, documents, alerts, and notifications.

### *Cybersecurity Toolbox*

We will equip you with tools to be successful in your cybersecurity goals. Our solution includes the following features and benefits:

- Checkups and assessments
- Policies, plans, and procedures
- Awareness training and testing
- Technology solutions

### *Dedicated Support System*

Mechdyne will be your dedicated advisor to answer any questions and assist you in utilizing this platform with support via email or phone. Educational and instructional content for training your users will also be available at your convenience.

### About Mechdyne

Mechdyne is a global technology leader in a diverse set of solutions at the intersection of IT and audiovisual technology. Mechdyne's 100% US-based IT Service agents offer services including an ITIL best practices driven service desk, infrastructure management, and cybersecurity to increase efficiency and productivity.
